MEMORANDUM FOR: Deputy Director for Operations
FROM: Deputy Director of Central Intelligence
SUBJECT: Approval of Recommendations of Inspector
General's Report on the Office of Medical
Services (OMS)

25X1

1. I have approved recommendations B1-B4, C1-C5, D1, E1 and F1-18 of the Inspector General's April 1981 report on the Office of Medical Services (OMS). Recommendations B3, B4, D1 and F11 require action by you. Tab C (Field Reports) and Recommendation D1 were forwarded to you earlier. I have attached another extract from the inspection report for your information.

SECRET

appropriate components review procedures for briefing personnel prior to overseas assignment to ensure that they are provided with up-to-date information on the difficulties, as well as the benefits of serving at their posts of assignment; where feasible, Headquarters country branches or desks should arrange post briefings for spouses of employees heading overseas.

Please take on the responsibility for this "telling it like it is" effort coordinating as necessary with other components. We can, and should, do more to prepare employees to handle the stressful aspects of life overseas. I have not sent separate memoranda to each component and will rely on you to complete action on this recommendation. I would appreciate a report on your progress not later than 20 July 1981.

25X1

This is a dual effort to promote awareness of medical support capabilities. Both you and the D/MS should work toward a common goal of better use of OMS support. I have asked the D/MS to provide a progress report not later than 20 July 1981.

25X1

B. R. INMAN
Admiral, US Navy
